

*THAW- The Edmonton Home + Interior Design Show -September 2-5 2004

Membership Information

MEMBERSHIP INFORMATION

What is IDEA?

“IDEA” The Industrial Designers of Edmonton Association (Incorporated 20, October 2002) is a collaborative community of Industrial Designers promoting awareness of Design in Edmonton and the world. Through the exchange of knowledge and resources IDEA aims to grow and expand, ensuring a positive future for the practice of Industrial Design in Edmonton.

How?

We volunteer, share, and pool our resources. We exhibit our work and make connections with our community. We are open-minded and our backgrounds and interests are as diverse as our solutions. IDEA is fluid and will transform; as change is integral to our future. IDEA’s organization is formed by its belief in the benefits of collaborative design and commitment to the contribution of positive design in society. In addition we promote the use of the Internet as a powerful communication tool to gain global exposure, aiming to network with Design communities around the world.

Design Projects:

As a design collective, IDEA will design innovative solutions to a variety of projects. By design, IDEA is a large group that has a wide range of skills and expertise in many areas such as: sustainability, urban design, graphic design, retail and display design, interiors, furniture, product design, and large scale public art projects.

Membership:

Based on the profit and benefit of working together as a close knit collaborative whole, membership is limited and subject to the board members evaluation through the written constitution of IDEA.

Professional membership is granted to individual who has at least an undergraduate degree in industrial design or a related design discipline, and/or appropriate professional experience. Such a member may serve as Committee Members, and are eligible to vote.

Prospective membership is granted to students attending a school of industrial design or studying in a related design discipline. Such a member may serve as Committee Members, and are eligible to vote.

Sponsorship membership is granted to organizations or business companies that work or serve in the design field. Such a member may not serve as Committee Members, and are not eligible to vote.

Supporting membership is granted to individual, organization or companies not eligible for other forms of Membership in the Society. Such a member may not serve as Committee Members, and are not eligible to vote.
